PROFILE SUMMARY

Flutter Developer with hands-on experience building cross-platform mobile applications using Flutter and Dart. Experienced in REST API integration, state management, authentication, Firebase, real-time communication, and backend integration with Node.js and MongoDB. Strong interest in building responsive, maintainable applications with clean architecture and reusable components.

TECHNICAL SKILLS

Languages: Dart, JavaScript, C, C++

Mobile: Flutter, Bloc, Provider, Clean Architecture, Responsive UI

Backend: Node.js, Express.js, REST APIs, WebSocket, Socket.IO, JWT

Database: MongoDB, Firebase Firestore, SQL

Tools: Git, GitHub, VS Code, Postman, Firebase, Vercel

Concepts: State Management, Repository Pattern, Dependency Injection, Dio, Flutter Secure Storage, OOP

PROFESSIONAL EXPERIENCE

Flutter Developer Intern — BridgeSkill, Wayanad, Kerala

Feb 2026 – Aug 2026

- Developed responsive cross-platform mobile interfaces using Flutter and Dart with reusable UI components.
- Integrated REST APIs and collaborated with backend developers to implement authentication and application features.
- Worked with state management, API integration, debugging, and application architecture during mobile development.
- Used Git and collaborative development practices while building and testing Flutter applications.

PROJECT HIGHLIGHTS

Real-Time Chat Application

2026

Flutter, Node.js, Express.js, MongoDB, Socket.IO

- Developed a real-time messaging application with authentication, one-to-one conversations, contact management, and message history.
- Implemented Socket.IO for real-time text and image messaging and integrated REST APIs for users, messages, media uploads, and synchronization.
- Built responsive Flutter chat interfaces with Provider-based state management and reusable components.

Torque MotoTech – E-Commerce Platform

2026

React.js, Node.js, Express.js, MongoDB

- Built and deployed a full-stack e-commerce platform for Torque MotoTech with product browsing, authentication, cart, and order functionality.
- Developed responsive React.js interfaces and integrated REST APIs with a Node.js, Express.js, and MongoDB backend.
- Built an admin panel for product management and deployed the production application using Vercel.

E-Commerce Mobile Application

2026

Flutter, Node.js, MongoDB

- Developed a Flutter e-commerce application with authentication, product catalog, shopping cart, order management, and Razorpay payment integration.
- Designed responsive mobile interfaces and integrated REST APIs with a Node.js and MongoDB backend.

Car Rental Application

2025

Flutter, Firebase

- Built a mobile car rental application using Flutter, Firebase Authentication, and Firestore for vehicle browsing, booking, and rental management.

EDUCATION

Yenepoya Institute of Technology, Karnataka

2022 – 2026

Bachelor of Engineering in Information Science & Engineering

CGPA: 7.78
